

Piper Turner

Be Cool

Piper Turner, an animal science pre-vet specialty from Oklahoma State University, is our Boot Barn Exhibitor of the Day. Piper and Pakman, her horse who loves apple nuggets, have been together since March and are attending the 2022 Color Breed Congress for the first year.

Piper has been riding for six years but only showing for three. She enjoys competing in Western Disciplined Rail classes, while Pakman enjoys all Western Pleasure classes.

Piper's mom is her biggest motivator. When talking with Piper, she was asked why, and she said, "she can read me like a book! She pushes me when I need to be pushed, and she knows everything."

If you have an interest in starting to ride or showing, Piper says, "just do it and bite the bullet. It is for everyone of all ages!" Her cousin and grandpa are the ones who sparked her interest in starting to ride. When she was younger, she would go to their house and ride their horses, and she later got one of her own.

At the 2021 Pinto World Championship, Piper's show family threw her a birthday party and decorated the stalls. This was her favorite memory from a horse show as they made her feel special since her family could not attend and be there for her birthday.

Each day at the Color Breed Congress Show an exhibitor will be selected to be featured on the official PtHA Facebook page. Each winner receives a \$50 Boot Barn gift card.
